a request to use another weather map. I am new to the forum in general and have not used SDV before. I am not finding any options to navigate a disc. Any help in this matter is appreciated. Thank you in advance.

have an AVN4605d (2004) with buttons on  
it. If i was to turn the disc round by 180o  
(like in a DVD player) will that affect the  
functionality of the unit or will the unit just  
throw up an error message? And if it does  
throw up an error message will it go back to  
the main menu? Avn4405d must be for "old"  
avn4405d so it must be different on my unit.

my unit does not have the buttons on the  
front. i know that the acer symbol is with the  
play button. i use the touch buttons for play.  
there is no touch button to turn a disc. Eclipse

hello everybody. I've just bought a new TV but it is not HD. The nearest available option to me in my area is Gefen 720p and it is only HD 720p at that price. Eclipse Navigation Disk Available, AVN1106D AVN1106DmkII (,AVN1106Dmk2),AVN2204D AVN2205D,AVN4404D AVN4405D . "Hello." edd6d56e20
