## Windows XP SP3 Lite Netbook Edition Iso

He's using the word "Lite" to convey its even smaller size, but So I assume you are saying that when I search for the "Lite" version, I need to actually click "Download the sp3 or login to get the "lite" version. If this is the case, I'll just say thanks for the heads up, but I'll just continue doing as I have been. Yes, I go into the Windows Download site and pick the x64 version, which is labeled as "XP Home Edition Service Pack 3 x64 (Lite)". Then when it opens, you have to select the "Lite" version, which is 190 M of download. Once you get there, you still have to pay for the license for "Home" or "Professional" if you really want to call it that. Next, it gets to the bit where it is loading, and it says I need to put the other product key that I used for my "Lite" version in the upper left hand corner. The problem is I have no idea what it is! I didn't buy a "Lite" version for my product key to put in that little lower left hand section. It has a generic product key number with a "M" and a "P" and the following: "15-42-M15-42-P15-42-ZZZnOOO" I don't even know where to start looking to find the actual product key for my edition. Thanks for all your help! (Edit) I found the answer here: But I think there is something I have to watch out for, and when I attempt to add my product key, it says "Windows has detected that this package contains an unlicensed copy of the software. Please return to the windows website." Would anyone be willing to explain or help me solve this? This is just not something I had ever had to think about before, so it's a little nerve wracking! A: You need to obtain a license key from the Microsoft website. The site will have "other editions" under "Product Family". XP Home Edition If you have a standalone installation, then you get the Home version. If you are using a Windows Media Center PC (MCE), then there 6d1f23a050
